KEPT CONSTANTLY FOR SALE BY

LAZELL, MARSH & GARDINER

IMPORTERS AND JOBBERS,

No. 10 Gold St. New York.

---

TERMS—Net Cash in par Funds. Prices subject to  
changes in the market.

---

NEW YORK, February, 21, 1870.

---

Forst, Averell & Co. Printers, 23 Platt Street, N. Y.

NEW YORK, FEBRUARY 21, 1870.

DEAR SIR:—

Herewith we hand you our revised Price Current, corrected to date.

Our friends will note a gratifying decline in prices since our last, and they may be assured that we shall be prompt to give them the benefit of any future decline.

A few articles are in small stock — prominent among these are Cantharides, Cardamoms, Vanilla Beans, and Oil of Bay. Of the latter article Government has seized all to be found. The duty on this oil is \$17.50 (gold) per pound, while it has been selling for less than that figure in currency. Rhubarb Root is in good supply, at lower figures, and of improved quality.

We purpose to continue to give our attention mainly to the jobbing trade. Our entire stock is laid in with a view to the wants of the critical retailer. We have no outlet for poor goods, and consequently avoid them.

The quotations annexed, it will be understood, are for broken packages, in moderate quantities. More favorable figures may often be given for considerable quantities, and certainly will be for full packages.

Of course we design by this catalogue to extend our business, and shall welcome those who may be inclined to open a correspondence with us. Our terms are net cash, payable within thirty days; accounts remaining unpaid at the end of that time will be considered subject to draft. Parties ordering for the first time, will see the propriety of giving references.

Special quotations given when desired.

LAZELL, MARSH & GARDINER.

—o—

## SELECT POWDERS.

Of our "Select Powdered Drugs" so long and favorably known, we take pleasure in presenting below a list more comprehensive than ever.

Put up in tin cans of 5 lb. and 10 lb. each. Also in 1 lb.,  $\frac{1}{2}$  lb.,  $\frac{1}{4}$  lb.,  $\frac{1}{8}$  lb., and 1-16 lb. bottles, enclosed in paper cartons.

The packages enumerated above will be charged as follows.

10 lb. tin cans	each.	45
5 lb. "	"	30
1 lb. bottles, with cartons	"	25
$\frac{1}{2}$ lb. "	"	20
$\frac{1}{4}$ lb. "	"	15
$\frac{1}{8}$ lb. "	"	12
1-16 lb. "	"	10

## FLUID EXTRACTS.

Fluid extracts represent for each fluid ounce, one ounce of the crude material, the exceptions being the compounds prepared according to the Pharmacopœia. It is, therefore, easy to estimate the relative quantity in preparations, compounds or prescriptions, when the crude material or powder has heretofore been used.

Put up in 4lb., 1lb. and 5lb. bottles. The latter ten cents less per lb. than in pounds. Packages free in all cases.

	In lb.	Dozen
	Bottles	4 oz.

## ALCOHOLIC AND HYDRO-ALCOHOLIC EXTRACTS, OR SOLID EXTRACTS.

Prepared in vacuo, at a temperature not exceeding 110° Fah., thus avoiding the chemical changes so likely to occur in ordinary extracts. The quotations given are for the Extracts in pound packages. They are also put up in ½ lbs., 2 lbs., 1 lbs., and 1-16 lbs., at an additional cost sufficient to cover the extra packages, and loss in subdividing.

## SINGLE BEAM BOX COUNTER SCALE

Elegantly Japanned White and Gold.  
Solid Brass Mountings.

Hoffman's Patent, Aug. 7, 1866.

Of this new and beautiful pattern there are five sizes, now for the first time, offered to the Trade. In point of general appearance they resemble the celebrated French (Beranger) Scale, yet differ from them in internal arrangement, having but one single beam instead of two beams, consequently fewer bearings, and thereby greater facility of movement and increased accuracy are positively secured, as well as less liability to get out of order. In regard to style, finish and beauty of workmanship they have no superior.

## FLUID EXTRACTS

PREPARED BY

LAZELL, MARSH &amp; GARDINER,

NEW YORK.

We append a list of Fluid Extracts, all of which are made by cold percolations.

Believing thoroughly in the importance of adhering to the recognized standard, and thus furnishing preparations upon the strength of which the physician can estimate with certainty, and prescribe understandingly, we have not deemed it our province to seek for fancied improvements upon the formulas in the Pharmacopoeia, but have, so far as they are laid down in that work, rigidly followed them.

The Official Extracts are printed in Italics.

Most of the Unofficial Extracts we have made of a uniform strength, viz: 16 Troy ounces of the crude material being represented in each pint of Extract.

We intend that all Fluid Extracts bearing our label, shall be as perfect as the choicest material, faithful adherence to recognized formulas, and the highest skill at our command, can make them.

TRUE  
PERSIAN INSECT POWDER,  
FOR THE DESTRUCTION OF BUGS, ROACHES, ANTS, FLEAS,  
WATER-BUGS AND OTHER VERMIN.

LAZELL, MARSH & GARDINER,  
WHOLESALE DRUGGISTS,

No. 10 GOLD STREET, N. Y.

The popular notion that this substance is a combination of ingredients, is an error.

GENUINE PERSIAN INSECT POWDER is the flowers (ground) of the *Pyrethrum Carneum* or *Pyrethrum Roseum*, a plant growing at a high elevation upon the Caucasian Mountains, and possessing in a singular degree, the quality of first stupefying, and then killing insects and vermin of every kind, while at the same time it is harmless to man and animals.

PERSIAN INSECT POWDER has long been in extensive use in Asia and Eastern Europe, but only within a comparatively recent period has it been known in Western Europe or in this country.

Our House was one of the first, (if not the first,) to introduce it in the United States. As its qualities became known a large demand quickly sprang up, stimulated by parties who adopted the article, putting it up, however, under other names, such as "Magnetic Powder," "Electric Powder," &c.

The demand for the powder in Western Europe and this country has increased so much of late, that adulterations with the leaves and stems of the plant, as well as with other substances, have become common, and vast quantities of this trash are thrown upon the market.

Indisputably many persons on this account have been disappointed in the results they expected.

We have, since its first introduction in this country, been largely engaged in importing the Persian Insect Powder, and our long experience has given us unsurpassed facilities for commanding the best Powder obtainable, viz:—*that ground from the flowers alone*. Our instructions to our agents are imperative on this point; and that they have been faithfully followed, is evidenced by the favor with which PERSIAN INSECT POWDER, bearing our label, has always been received.

For terms, see below.

New York, March, 1869.

LAZELL, MARSH & GARDINER.

PRICES OF LAZELL, MARSH & GARDINER'S PERSIAN INSECT POWDER.

4 ounce Bottles, per doz.....	\$2 75		4 ounce Bottles, per gross.....	\$30 00
24 ounce Bottles (Hotel size), per dozen.....				15 00

The most satisfactory results in the use of the Persian Insect Powder, are secured by the use of a Bellows, made for the purpose. The Bellows, filling the air with the powder, compels the inhalation of the fine particles by the insect or vermin, and it is this inhalation, rather than mere contact, that kills them. By it, the Powder can be blown into crevices and recesses, searching out such vermin as would be comparatively secure from a simple strewing by hand. Moreover, the use of the Bellows economises the Powder, making every particle tell.

Price of Bellows, (Retail, \$1.00).....\$7 50 per doz.

# TROEMNER'S STEEL DRUG and SPICE MILL.

*Capable of reducing Drugs, Spices, Roots, &c.,  
to a fine powder.*

It can be dusted out and cleaned in a moment, by unscrewing the two brass thumb-screws and removing the face and fly-wheel. We believe this Mill, in point of efficacy and durability, to be superior to any other in use.

PRICE - - - - - \$20.
